

Caring for your **FIDDLE LEAF FIG**

For more tips, including how to prune your plant and propagate new plants from the cuttings, check out articles at

www.jewelsathome.com

LIGHT

Your plant likes bright light

Avoid direct sunlight

WATER

Keep the soil moist

Water when the top inch of soil is dry

FERTILIZER

Fertilize during the March to September growing season

CLEANING

Dust or wipe off the leaves to help them get air and light

REPOTTING

During growing season, when roots fill the pot, move into a larger pot or trim roots and replace in pot
